"Contains fully worked-out solutions to all of the odd-numbered exercises in the text, giving students a way to check their answers and ensure that they took the correct steps to arrive at an answer."-- NEW! Get your students up to speed with study skills while they learn course-specific material. This notebook introduces students to the steps they need to take to ensure college success, and then guides them step-by-step through each section of their textbook. Each chapter contains a chapter readiness assessment, fill-in-the-blank course notes, activities, structured note taking guides, end-of-chapter test prep, and helpful study aids. The notebook also contains general tip sheets on note taking, studying, assessing their test scores, and much more. The three-hole punched and perforated format allows students to insert all relevant pages into a 3-ring binder and organize them along with their class notes, homework, review sheets, and tests. This Student Solutions Manual for Tussy and Gustafson's PREALGEBRA includes worked-out solutions to the odd-numbered problems in the text. The Dugopolski series in developmental mathematics has helped thousands of students succeed in their developmental math courses. Elementary & Intermediate Algebra, 4e is part of the latest offerings in the successful Dugopolski series in mathematics. In his books, students and faculty will find short, precise explanations of terms and concepts written in clear, understandable language that is mathematically accurate. Dugopolski also includes a double cross-referencing system between the examples and exercise sets, so no matter where the students start, they will see the connection between the two. Finally, the author finds it important to not only provide quality but also a wide variety and quantity of exercises and applications. Think of it as portable office hours! The Interactive Video Skillbuilder CD-ROM contains video instruction covering each chapter of the text. The problems worked during each video lesson are shown first so that students can try working them before watching the solution. To help students evaluate their progress, each section contains a 10-question Web quiz (the

results of which can be emailed to the instructor) and each chapter contains a chapter test, with answers to each problem on each test. This dual-platform CD-ROM also includes MathCue tutorial and quizzing software, featuring a Skill Builder that presents problems to solve and evaluates answers with step-by-step explanations; a Quiz function that enables students to generate quiz problems keyed to problem types from each section of the book; a Chapter Test that provides many problems keyed to problem types from each chapter; and a Solution Finder that allows students to enter their own basic problems and receive step-by-step help as if they were working with a tutor. Also new, English/Spanish closed caption translations can be selected to display along with the video instruction. The MznLnx Exam Prep series is designed to help you pass your exams. Editors at MznLnx review your textbooks and then prepare these practice exams to help you master the textbook material. Unlike study guides, workbooks, and practice tests provided by the textbook publisher and textbook authors, MznLnx gives you all of the material in each chapter in exam form, not just samples, so you can be sure to nail your exam. Tussy and Gustafson's fully integrated learning process is designed to expand students' reasoning abilities and teach them how to read, write, and think mathematically. In this 2nd edition, the concept of function is introduced in Chapter 2 and is stressed throughout the text. Students learn to use function notation, graph functions, and write functions that mathematically model many interesting real-life situations. The authors build the strong mathematical foundation necessary to give students confidence to apply their newly acquired skills in further mathematics courses, at home or on the job. A true balance of traditional and reform instructional approaches constantly reinforces the major concepts of algebra throughout the text. The early introduction of fundamental algebraic concepts through numerous interactive examples and a wide variety of exercises show students how to translate English phrases to mathematical symbols. Tussy and Gustafson's fully integrated learning process is designed to expand students' reasoning abilities and teach them how to read, write, and think mathematically. Get a head start! The Student Workbook contains all of the Assessments, Activities, and Worksheets from the Instructor's Resource Binder for classroom discussions, in-class activities, and group work. Contains fully worked-out solutions to all of the odd-numbered exercises in the text, giving students a way to check their answers and ensure that they took the correct steps to arrive at an answer. Each of the 15 TLE Labs, scheduled one per week in a traditional semester course, introduce and explore key concepts. iLrn Tutorial reinforces those concepts with unlimited practice. With the opportunity to explore these core concepts interactively at their own pace, students are solidly prepared for the work of the traditional course. TLE Labs correlate to the key concepts of the text and the course in general. All labs are developed with seven key components: Introduction. Tutorial. Examples. Summary. Practice and Problems. Extra Practice. Self Check. Each of these lesson components can be accessed easily from any other component and in any order after the lesson is activated. In addition to the printed textbook, students receive everything they need to succeed in the course: an online version of the text, access to the TLE Labs, text-specific interactive tutorials, and access to Personal Tutor with SMARTHINKING-all in the same, single, unified environment. Ask your Cengage Learning representative about TLE Labs! They're a great value for your students. Become fluent in "the language of algebra" with INTERMEDIATE ALGEBRA. This textbook will improve your ability to read, write, and communicate mathematical ideas.
