The classic, bestselling book on the psychology of racism -- now fully revised and updated Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are serious about enabling communication across racial and ethnic divides. These topics have only become more urgent as the national conversation about race is increasingly acrimonious. This fully revised edition is essential reading for anyone seeking to understand the dynamics of race in America. This in-depth look at a diverse group of young women at an alternative high school illuminates issues of race, class, gender, and identity formation, and shows the enormous power of schools to re-orient young women from school failure to success. Examines the cultural politics of television and race. In the late 1980s and early 1990s television representations of African Americans exploded on the small screen. Why has this occurred, and what relation do these shows have to society's idea of "blackness"? How do these shows relate to earlier television series featuring African Americans? Herman Gray's *Watching Race* -- now available in paperback for the first time -- offers a new look at the changing representations of African Americans on television. Starting with the portrayal of blacks on series such as *The Jack Benny Show* and *Amos 'n' Andy*, Gray details the ongoing dialogue between television representations and cultural discourse to show how the meaning of blackness has changed through the years of the TV era. Drawing on analyses of *The Cosby Show*, *Frank's Place*, *In Living Color*, and *Roc*, as well as music videos, news coverage, and advertising, *Watching Race* examines how the political stakes, cultural perspectives, and social locations of key cultural and social formations influence the representation of "blackness" in television. "Absorbing.... Offers incisive analysis of the important, often fierce battles being waged in the black-and-white representational landscape of commercial television". Patricia Williams In the first philosophical challenge to accepted racial classifications in the United States, Naomi Zack uses philosophical methods to criticize their logic. Tracing social and historical problems related to racial identity, she discusses why race is a matter of such importance in America and examines the treatment of mixed race in law, society, and literature. Zack argues that black and white designations are themselves racist because the concept of race does not have an adequate scientific foundation. The "one drop" rule, originally a rationalization for slavery, persists today even though there have never been "pure" races and most American blacks have "white" genes. Exploring the existential problems of mixed race identity, she points out how the bi-racial system in this country generates a special racial alienation for many Americans. Ironically suggesting that we include "gray" in our racial vocabulary, Zack concludes that any racial identity is an expression of bad faith. Author note: Naomi Zack is Assistant Professor in the Department of Philosophy at the State University of New York at Albany. She herself is of mixed race: Jewish, African American, and Native American. *Race Contacts and Interracial Relations* comprises five lectures that Alain Locke, Howard University professor of philosophy and critic of the Harlem Renaissance, delivered in 1916 at Howard University. Locke examines race and racism in twentieth-century social relations and provides a means of analyzing race and ethnic conflict in relation to economic and political changes in society. He suggests that a way to understand racial conflict is to look at nonracial issues that divide a society and at how race becomes a symbol of those issues and conflicts. Locke's early recognition and articulation of Franz Boas's theory of race in these lectures and his contention that racism is socially generated were intellectual departures at the time. While rejecting the biological basis of race, Locke proposes that the social concept of race could be employed by a minority as a cultural strategy for self-help and self-definition. Thus the lectures show that Locke's work in African American art and culture grew out of a considered analysis of race and modern society. In the introduction to this carefully edited volume, Jeffrey Stewart provides background on Alain Locke and other theorists on race whom Locke discusses, situates Locke's ideas on race within the context of his time, and relates Locke's

lectures to his thought on art and culture and to contemporary arguments on race. A life strategy guide by the creator of the Spartan Race explains how the principles that bring about success in an extreme sports environment can help anyone achieve his or her full potential in life, business, and relationships. *Unofficial Guide Version* Advanced Tips & Strategy Guide. A satirical travelogue by a pair of television comedy writers recounts their competition to travel around the world in opposite directions without the benefit of airplanes, dual journeys they took by ocean freighter, railway, and other methods through myriad regions, from the West Bank and the Aleutian Islands to Rio and Mongolia. Original. This definitive sourcebook for the Pathfinder Roleplaying Game provides tons of new character options for all seven "core" player character races, from archetypes that allow elf characters to explore their connection to nature and magic, to feats and spells that let a dwarf character carry on the legacy of his multi-generational clan, or a gnome explore her connection to the First World or delve deep into her weird obsessions. Additionally, the Advanced Race Guide offers meaty sections on a dozen "spotlight" races that make interesting and exciting player character options, such as goblins, aasimar, tieflings, dhampyrs, drow, the elemental races from Bestiary 2, and several others, and, for the first time, allows players to create and play characters like merfolk, grippli, duergar, stryxx, and every other appropriate monster currently in the Pathfinder game. Lastly, the Advanced Race Guide includes an extensive section that allows players and GMs to build their own custom races, either to emulate more powerful creatures that already exist in the game or to create wholly original characters unique to their campaign. 2018 Newbery Honor Book and Coretta Scott King Author Award Winner 'Important and deeply moving' JOHN GREEN 'Timely and timeless' JACQUELINE WOODSON Jade is a girl striving for success in a world that seems like it's trying to break her. She knows she needs to take every opportunity that comes her way. And she has: every day Jade rides the bus away from her friends to a private school where she feels like an outsider, but where she has plenty of opportunities. But some opportunities Jade could do without, like the mentor programme for 'at-risk' girls. Just because her mentor is black doesn't mean she understands where Jade is coming from. Why is Jade always seen as someone to fix? But with a college

scholarship promised at the end of it, how can Jade say no? Jade feels like her life is made up of hundreds of conflicting pieces. Will it ever fit together? Will she ever find her place in the world? More than anything, Jade just wants the opportunity to be real, to make a difference.

Kassanoff shows how Wharton participated in debates on race, class and democratic pluralism at the turn of the twentieth century. "This sophisticated account of a remarkable city's coalitions and conflicts over half a century is an outstanding contribution to urban history and political analysis. Clearly written and amply supplied with good stories, the book will interest students of urban history, social movements, and American political change."—Charles Tilly, author of *Durable Inequality*

"An altogether exemplary book. Rhomberg uses a combination of traditional class analysis, an institutional perspective on urban politics, and social movement theory to fashion a rich and persuasive account of the history of urban political conflict in Oakland between 1920-1975. In combining these strands of theory and research, he has also given us a model for the kind of dynamic, historically grounded political sociology that has been sadly missing in recent years."—Doug McAdam, author of *Freedom Summer*

"Race, class, and local politics are key components of America's social fabric. On the basis of his outstanding scholarly research, Rhomberg examines the complex web of their interaction by focusing on one of the most conflicted urban scenes: Oakland, California; and taking a historical perspective on the evolving pattern of power struggles. This book will become required reading for students of urban politics."—Manuel Castells, author of *The Rise of the Network Society*

"No There There combines a sophisticated interpretation of political and sociological urban theory with rigorous historical research... An important and stimulating book."—Joseph A. Rodriguez, University of Wisconsin-Milwaukee, *Western Historical Quarterly*

The *Token Black Guide* offers a conversation on race that discusses aspects that many are not exposed to, are uncomfortable with, or simply uncertain how to challenge. The *Token Black Guide* is a blunt, informative, and sometimes humorous account of what it means to be confronted with prejudice and ignorance while being the only splash of color in a situation. Drawing on his own background growing up Jewish in a largely black housing project in New York City, the author analyzes the racial experiences of his boyhood while investigating the treatment of blacks in society and the media. In this companion to his best-selling book, Singleton presents first-person vignettes and a detailed case study showing educators how to usher in courageous conversations to ignite systemic transformation. This text describes the response of Jewish race scientists in the late 1800s to the question of whether there was a biological basis for Jewish distinctiveness and social development and the complex factors involved in the debate. Become a proactive initiator of racial justice. The *How to Fight Racism Study Guide*, used together with the *How to Fight Racism Video Study*, provides groups and individuals with practical tools and suggestions, actionable items, and real-world examples of change, to enable them to confront racism in relationships and in everyday life. Jemar Tisby presents a simple framework--the A.R.C. Of Racial Justice--that helps readers consistently interrogate their own actions and maintain a consistent posture of anti-racist action. This book is for anyone who believes it is time to stop compromising with racism and courageously confront it. The study guide, along with the video study, offers readers the opportunity to be part of the solution to racial problems and suggests that the application of these principles can offer us hope that will transform our nation and the world. Tisby encourages us to reject passivity and become active participants in the struggle for human dignity across racial and

ethnic lines. Readers of the book will come away with a clear model for how to think about race in productive ways and a compelling call to dismantle a social hierarchy long stratified by skin color. Chrissie Wellington, the world's number one female Ironman athlete and four-time World Ironman Champion, presents her struggles, wisdom, and experiences gained from her hard-won career as a triathlete. With close to 2 million core participants, triathlons of various distances and challenges are attracting more participants than ever before.
