"Mark My Words" is a saga about Allan Christopher and his family. Allan is a self-made, African-American multimillionaire approaching sixty. He and his wife Maureen have been married for forty years, and they have eight children and seventeen grandchildren. He was born in Kansas City, Missouri, starting out with nothing but family, very high intelligence, ambition, and drive. Graduating from high school at age sixteen, he worked his way through trade school to become an electrician. He was confronted with discrimination and prejudice, especially in the workplace. In his drive to succeed and refusal to be held down, he opened a fix-it shop in Chicago, and through hard work and determination turned it into a multi-million-dollar electronics corporation. He's "made his mark." For the last twenty-five years, his home has been a thirty-room estate in Evanston, Illinois. He's very articulate, and is among the Who's Who of Black America. His company is among those listed in the Fortune 500. He enjoys fine cars, like his collection of vintage automobiles. His children are educated and successful in their own right. He has contributed greatly to the community, considered to be one of its "movers and shakers." His business and social connections are numerous, and he faithfully attends church on Sundays. But has he made it? With the advent of his sixtieth birthday, his character, his past and his beliefs come into focus, honor and question as his story is told through the eyes of his family... including his four gay children... and with it his impact on their lives. The time is May 1988; the place, Chicago. Now in its 15th edition, this proven, market-leading book remains a favorite among readers of all backgrounds for its clear, concise treatment of international trade and finance theory. Using a wealth of contemporary examples and practical applications, INTERNATIONAL ECONOMICS vividly demonstrates the relevance of theory to real-world economic issues and policy questions. Discussions are presented both verbally and graphically, making the book highly accessible even if you have little economics background. As you will soon discover, if it's clear, concise, and contemporary, it has to be Carbaugh! CHINA CEO: A Case Guide for Business Leaders in China Some Western business leaders are moving into China without any clear knowledge of the many pitfalls they will encounter: the weak rule of law, forceful governmental intervention, a scarcity of managerial talent, the likelihood of counterfeiting, the fast paced business environment and surprisingly aggressive local competitors. This book uses case studies to both illuminate and examine these key managerial challenges. Each case focuses on a specific topic and is complemented with commentaries from professors and executives who have extensive front-line experience in China. The cases are the product of three-year research and are well-tested in MBA and executive courses. The authors' philosophy is that readers can learn most effectively through the experience of others captured in real cases! The book includes a broad range of companies, such as Emerson, Eli Lilly, General Motors, Peugeot, Carrefour, Daimler-Chrysler, Picanol. It also includes more personal experiences concerning the many challenges of expatriate-living in China, some of whom have started their own businesses. The book provides concise but insightful analysis to help readers to get the most from the case studies. As a result, this book will help you get better prepared to face the varied challenges you will find in China. These cases complement the material presented in a previous work, China CEO: Voices of Experience from 20 International Business Leaders, also published by John Wiley & Sons.
